Office and Jurisdiction Information

How many lawyers work in your office?

Which county, or counties, does your office serve?

If an extern is placed in your office, in which counties will they be working?

If an extern is placed in your office, how (if at all) do you anticipate that the pandemic will impact their experience? (Will they be primarily working with you in person or remotely? Do you anticipate that your court proceedings will be in-person or virtual?)

Supervising Attorney Information

The supervising attorney will assign and supervise the extern's work, and the extern will report directly to that supervisor. Field supervisors will complete three online evaluation forms of their students' legal skills and professionalism. If the extern is a rising 3L, then their supervising attorney must meet the requirements of the supervising attorney from the Texas Supreme Court.

If an extern is placed in your office, who will serve as their supervising attorney?

When was that person licensed to practice in Texas?

Other Requirements

Most externs will need help locating summer housing. However, externs may not live in housing that is owned, or occupied, by an employee of the placement office.

What suggestions do you have about where an extern might find housing?

If an extern is assigned to your office, will you be willing to help them find housing?

Yes

No
